Sponsorship Packet

Scholarships

Spring 2022
CSU SWE gives scholarship awards to our most active members at the end each school year. This year, we would like to give away 3 $500 scholarships to our most involved 1st/2nd year member, most involved member overall, and most involved officer. These scholarships encourage our members to participate in our section activities and events throughout the school year, which includes outreach events for middle school and high school girls, peer and professional mentoring socials, hearing from industry members at meetings, and more!
How You Can Help

Our scholarships are made possible through the support of the Colorado community and engineering industry. We need your help to be able to continue to offer a scholarship program for our members! These scholarships aim to increase retention in engineering by helping to fund tuition, fees, books, and provide access to more SWE resources like global membership and conferences.
Your Contribution

Thank you for taking the time to review our sponsorship packet. If you have any questions, please do not hesitate to contact our president at csuswe@gmail.com

If you want to fully support one student, we suggest a donation of $500 or more. A donation of $1500 would help fund our scholarships for our members this year.

Scholarship donations are accepted online or via check. Please see the following slides for a step-by-step walkthrough of how to donate to our scholarship fund. Once you have completed the process, please send a follow-up email to: csuswe@gmail.com

If you fund us online, once the transaction goes through, an official receipt will be emailed to you from the CSU Foundation.

We appreciate any and all support you and your company can give!
