

INTRODUCE A GIRL TO ENGINEERING DAY

An opportunity for *middle school girls* to discover and learn about the different disciplines of engineering at **Colorado State University**. Meet current engineering students and learn how *engineers positively impact the world!*

Strawberry DNA extraction activity in the CSU engineering laboratories

More than 120 middle schoolers and 100 volunteers present day of

Circuit board building and testing demonstration

Students learned to solder and create their own device to take home

What

Introduce a Girl to Engineering Day is an event hosted by the Society of Women Engineers Section at CSU. The day is full of **hands-on engineering activities**, with lunch and snacks provided. A **parent education panel** is also held to give more insight on how to encourage young women in STEM.

Hand-made Chem-E boat racing with current engineering students

When

The 2019 Introduce a Girl to Engineering Day will be **March 30, from 8:30AM to 4PM.**

Why

We want to **encourage and enlighten** young women of their interest in STEM and how a career in the field can become a reality.
